ITIF | INFORMATION TECHNOLOGY & INNOVATION FOUNDATION

March 16, 2017

Christopher Bates
Counsel
Senate Judiciary Committee
Washington, DC

Dear Christopher:

I would like to invite you to participate in the next ITIF Education Series Staff Trip — periodic bicameral, bipartisan trips with House, Senate and Administration staffers to high-tech hubs around the country — and travel with us to San Francisco and Silicon Valley, California Wednesday, May 31 through Friday, June 2, 2017.

Over the past decade, ITIF has hosted Hill staff and administration officials on these educational tours to visit innovative companies — large and small — in a variety of sectors, from IT and telecom and media, to biotechnology and clean energy. We visit cutting-edge organizations and actually see how technology is being developed by talking with the engineers, scientists and entrepreneurs doing the work.

In the past, we have toured highly secure facilities to see where the Internet actually comes together. We have visited laboratories and heard from experts working on biotechnology cures for chronic human diseases, seen facilities dedicated to developing desk-top machines that will sequence a human genome for under \$1,000, and had discussions with leaders dedicated to developing the most advanced artificial intelligence software in the world. We have walked incredible factory floors and seen advanced thin film solar arrays being manufactured, glimpsed room-size digital offset printers, walked in the giant hangers where composite jet airplanes are made, and seen how the most advanced digitally animated movies are made.

We have talked with world-leading technology executives and futurists to hear how innovations like advanced wireless and quantum computing may change our world over the next decade. And we have had fascinating dinner conversations with leading venture capitalists, university presidents and others on the key issues affecting the U.S. innovation and entrepreneurial economy.

We expect this trip to be no different — especially since we expect to have about 20 staffers like you joining us. We anticipate a packed schedule, likely to include stops at Merck, Google, IBM, Jet.com, Ubisoft and others, along with lively policy discussions over dinner each night.

We would love for you to participate in what we know will be another great trip and take advantage of the opportunity to see innovation in action. This is a great opportunity to engage in rich discussions and dialogues with leading innovation companies and thinkers.

I have taken the liberty of including a tentative schedule below:

Wednesday, May 31:	Morning flight from Washington, DC (DCA) to San Francisco (SFO) followed by site visits in the afternoon and a dinner discussion in the evening.
---------------------------	--

Thursday, June 1:

Company site visits beginning first thing in the morning in San Francisco, additional site visits in Silicon Valley, then a roundtable dinner discussion.

Friday, June 2

Final company site visits in Silicon Valley before an afternoon flight home to DCA.

All travel expenses and meals are paid for by ITIF and the trip complies with House, Senate and administration rules governing privately sponsored travel. As you know, the House and Senate Ethics Committees require trip attendees to complete an often lengthy process prior to travel. To ensure timely submission of ethics materials to the appropriate committees, please let us know if you plan to participate in the trip by replying to Kaya Singleton at ksingleton@itif.org by Friday, April 14, 2017.

ITIF is a non-profit, non-partisan public policy think tank committed to articulating and advancing a pro-productivity, pro-innovation and pro-technology agenda internationally, in Washington and in the states. ITIF focuses exclusively on innovation, productivity, and digital economy issues all in the context of expanded global integration. ITIF is a 501(c)(3) organization governed by a board of distinguished IT and innovation policy leaders and experts. For more information, visit www.ITIF.org.

Please feel free to contact me at _____ g with any questions. Again, to RSVP, please contact ITIF's Congressional Outreach Manager, Kaya Singleton, at ksingleton@itif.org by Friday, April 14, 2017.

We look forward to hearing from you.

Sincerely,

Robert D. Atkinson, Ph.D.
Founder & President, ITIF

ATTACHMENT 2 – Question 13:

ITIF is a non-partisan think tank whose mission is to formulate and promote public policies to advance technological innovation and productivity. Recognizing the vital role of technology in ensuring American prosperity, ITIF focuses on innovation, productivity and digital economy issues. Our interest in the trip is to help staff better understand how new technologies and technology applications are developing and what the trends are likely to be in the future, so that they can better understand and respond to the technological challenges facing our nation. ITIF is a 501(c)(3) nonprofit organization founded in 2006; the organization is co-chaired by former members of Congress Vic Fazio and Phil English, and governed by a board of distinguished IT and innovation policy leaders and experts. Senators Chris Coons and Orrin Hatch are the Foundation's Honorary Senate Co-Chairs, and Congresswoman Anna Eshoo and Congressman Darrell Issa are the Foundation's Honorary House Co-Chairs.

This trip is part of the “ITIF Education Series” – a set of regular trips with Members of Congress and/or senior House and Senate staff to high-tech and innovation hubs around the country to hear from company leaders about new developments and issues, and to participate in educational forums on IT and innovation policy issues.

ATTACHMENT 3 – Question 14:

We have traveled to Palo Alto, California each year since 2010 with at least 20 staffers on each trip. Over the years, we have also organized trips to Portland, OR, Seattle, WA, Los Angeles and San Diego, CA, Philadelphia, PA and Boston, MA, and we host an annual policy retreat in Miami, FL featuring Members of Congress and senior staff.

ATTACHMENT 4 – Question 15:

ITIF is committed to articulating and advancing a pro-productivity, pro-innovation and pro-technology public policy agenda internationally, in Washington, and in the states because we understand the vital role of technology in ensuring American prosperity. We are the leading resource for elected officials, their staff and the media who rely on our ongoing policy reports, forums and policy debates to ensure that new and creative policy proposals are helping advance innovation, analyzing and making recommendations to update existing policy issues through the lens of innovation and productivity, and opposing policies that hinder innovation.

ATTACHMENT 5 – Question 18:

ITIF has selected San Francisco and Silicon Valley, California for this trip because these cities play a very important role in innovation and technology in the United States. This trip will give staff the opportunity to see actual technology demonstrations and presentations by top technology leaders.

ATTACHMENT 6 – Question 21:

ITIF has secured a group rate at the San Francisco Marriott Union Square for \$250 per night and the Comfort Inn Palo Alto for \$187 per night. These rates are equal to the government per diem rates in each city in June.
